

[History Makers International](#) is delighted to announce the 2012 Visual Researchers Delegation for January's annual summit in New York City.

Adding to our program launched last year in conjunction with **Thought Equity**, this year there are **43 researchers** in the program, joining us from the **U.S., Canada, the U.K. and Germany**. The following partners supported this initiative and made the expansion possible; **Thought Equity, INA, ACSIL, Focal, the Visual Researchers Society of Canada, Footage.net**.

Also, [History Makers International](#) offers a unique session -- **FOOTAGE FINDS: The Archivist's Cut** -- geared to the **visual research and archive community**. Don't miss the fun at the third annual **ACSL** "Hidden History" showcase. This panel is light and engaging, a treasure trove of compelling and unpredictable moving images. Discover rarely-seen footage from a wide variety of sources and hear the stories behind these **rare pieces of footage**.

Here are the Visual Researchers you can expect to see at History Makers International in January:
