

New owners for Footage Farm Ltd

We are very happy announce that Footage Farm Ltd is now owned by Gonzalo Chacon, Mat Flasque and Gintare Kriauceliunaite. Footage Farm was founded in March 2001 and has enjoyed over 14 years of expanding the collection and our client base. We've been very fortunate to have had some amazing employees starting with Lin McConnell who was with us from day one and many others who came and went - from Spain, France, Latvia, Germany and Poland. We're very proud of our achievements, highlighted by twice winning the Focal Library of the Year Award - in 2007 and again in 2015.

It will be business as usual on the Farm. The new co-owners/co-directors will continue to deliver the same high standard and personal service you have come to expect from Footage Farm. Orly Yadin and Bob Summers will continue to be available with advice when needed.

We look forward to your continuing business.
