

PRESS RELEASE FROM HUNTLEY FILM ARCHIVES
Wednesday, 27 January 2016

Huntley Film Archives is delighted to announce that we are now working in partnership with the prestigious Clips and Footage and will be offering their historic celluloid based collections.

Each film will be digitised and catalogued and offered for licensing directly through Huntley Film Archives.

Alison Mercer, Managing Director of Clips and Footage, says she asked Huntleys “to rep the 16mm films because the Huntley Film Archives is the best possible home for my films with its expertise in archive footage on celluloid”.

Amanda Huntley, Managing Director of Huntley Film Archives, says “I am so excited and indeed honoured to be chosen by Alison to work with their historic collections in partnership with Clips and Footage. We have had so much in common but to be now able to work formally together is a great thrill”.
